Testing pool \_\_\_\_\_

I hereby confirm that I have taken note of the two options regarding whereabouts after retiring from elite sports. I choose one of these options by ticking the box.

- I am no longer registered in a testing pool. Therefore, I can only take part in competitions at the level of my current performance once I have been integrated for at least six months in a testing pool as determined by Swiss Sport Integrity. I am responsible for organizing my reacceptance into a testing pool. Contrary provisions of international federations take precedence. It is my responsibility to contact my international federation in this regard.
  
- I remain registered in a testing pool as determined by Swiss Sport Integrity and report my details accordingly. This allows me to take part in competitions without restrictions. I can reconsider my decision at any time, taking into account the option above.
